

Date & Location:

Wednesday, May 23, 2018

In

West Glacier, MT.

@

The Community Center
Located in the Park Service
Administration Complex

Look for signs for Glacier Park Administration as you head toward park entrance—take a right on that road—go to last road and take a right again. Community Center will be on your right

ADA Meeting Announcement Statement:

MRWS will make reasonable modifications for persons with disabilities who wish to participate in this public training. If you would like to request an accommodation, contact the office at least 5 days prior to the event to advise us of the nature of the accommodation that you need.

“We learn more by looking for the answer to a question and not finding it than we do from learning the answer itself.”

- Lloyd Alexander

Annual
Glacier Park &
Small System
Operator
Training Workshop**

Wednesday, May 23, 2018

With Training Presented by:

Jon Cuthbertson
—M.E. Lab

DEQ Mary Simmons
— MT-DEQ
Montana Department
of Environmental Quality

Kristi Kline
—MRWS

Alan Wendt — AE2S Kalispell

About This Training

Although the agenda for this training session was designed to fit the needs of the National Park Service and their operators, it is open to all operators from any system and all operators are encouraged to attend. There is a broad range of topics covered that would be helpful to new and seasoned operators alike. Operators & utility workers dealing with surface water, well water, wastewater & distribution should all find this workshop helpful. This class is 0.4 water and 0.3 dual CEC's for Montana Operators. Operators from other states should consult their certifying agency and bring the appropriate forms necessary. It may also be helpful to bring the contact information for the person in charge of CEC's or CEU's for your state should any questions arise. Consult your states certification office before attending to insure you will receive credit.

No Registration Fee !!

CEC's: 0.4 Water & 0.3 Dual
