**No Registration Fee!!!**

### *About This Class:*

This in-depth training provided by Northwest HydroTech will cover basic hydraulics, installation, maintenance, troubleshooting, valve applications, and the purpose of pilot valves. Lack of valve maintenance is the major cause of failure. In cold weather climates, valves require extra measures to insure proper, uninterrupted operation.

#### NOTE:

This training is open to anyone that may want to attend. In addition to operators and managers, engineers and consultants may also find this training informative and useful to their positions.

MRWS will make reasonable modifications for persons with disabilities who wish to participate in this public training. If you would like to request an accommodation, contact MRWS 5 days prior to the event to advise us of the nature of the accommoda-

## Training Session Agenda
