MRWS Board of Directors and water and sewer member delegates,

Once again, I would like to apply for the board member position with Montana Rural Water Systems, Inc.

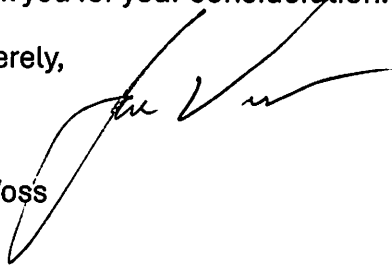

I was the water and sewer operator for the Town of Cascade for 36 years and am now the backup operator for them. I have been an MRWS board member for the past 12 years. As an operator, MRWS has helped both the Town and me with training, staying current with rules and regulations, and being in compliance with our rates, as they do with many of the other systems in Montana.

Being a board member has been a great experience. MRWS has a wonderful team of employees and board members, and I would like to continue working with all of you.

Thank you for your consideration.

Sincerely,

Joe Voss

A handwritten signature in black ink, appearing to read 'Joe Voss', is written over the printed name. The signature is fluid and cursive, with a large loop at the end.
