

**Backflow Prevention  
Assembly Testers Course  
Great Falls  
February 7 - 11, 2022**

NONPROFIT  
U.S. POSTAGE PAID  
GREAT FALLS, MT  
PERMIT No. 237

**Course Instructor(s):**

**Curtis Hester** is retired from the United States Air Force. He is currently the plumbing shop foreman at Malmstrom Air Force Base in Great Falls. Curtis has been a certified tester and backflow manager at Malmstrom AFB for over 25 years.

**Course Description:**

Lectures are followed by guided exercises in a wet lab will provide understanding of field testing methods on 4 backflow prevention assemblies: pressure vacuum breakers, spill resistant vacuum breakers, reduced pressure principle assemblies, and double check assemblies. Students will gain knowledge in hydraulics, backflow and back-siphonage, types of cross connections, and degrees of hazard and state and federal regulations. Friday afternoon is the written exam and Saturday morning is the practical exam administered by the American Backflow Prevention Association (ABPA). Passing scores on both the exams result in certification by ABPA as a backflow prevention assembly tester. For more information on ABPA go to their website [www.abpa.org](http://www.abpa.org).

**ABPA Certification Program:**

The American Backflow Prevention Association's Certification Program, recognized by the state of Montana, assists the administrative authority in assuring that backflow prevention assembly testers are receiving proper training and can demonstrate their understanding of that training in a validated examination process. When a tester successfully completes a written and practical exam ABPA awards a certificate. Testers can present the certificate to employers, local jurisdictions and states to demonstrate their understanding of backflow prevention and cross-connection control and the ability to perform field tests of a backflow prevention assemblies.

Montana Rural Water Systems, Inc.  
525 Central Avenue, M6

**DAY 1: Monday, February 7, 2022**

- 9:00 am Registration
- 9:30 am - 4:30pm
  - Lecture
  - Status of State Program
  - Responsibility, Liability, and Authority for Prevention
  - Hydraulics & Test Kits
  - Connections & Unapproved Devices
  - Special Application Devices
  - Cross Connection Control

**DAY 2: Tuesday, February 8, 2022**

- 8:00 am -4:30pm
  - Reduced Pressure Principle Assemblies (RP)
  - Double Check Assemblies (DC)
  - Associated Hydraulics & Maintenance & Repair
  - Lab/Diagnostics/Troubleshooting

**DAY 3: Wednesday, February 9, 2022**

- 8:00 am - 4:30pm
  - Pressure Vacuum Breakers (PVB)
  - Spill Resistant Vacuum Breakers (SVB)
  - Atmospheric Vacuum Breakers (AVB)
  - Associated Hydraulics & Maintenance & Repair
  - Lab/Diagnostics/Troubleshooting

**DAY 4: Thursday, February 10, 2022**

- 8:00 am - 4:30pm
  - Reduced Pressure Principle Assemblies (RP)
  - Double Check Assemblies (DC)
  - Pressure Vacuum Breakers (PVB)
  - Spill Resistant Vacuum Breakers (SVB)
  - Lab/Diagnostics/Troubleshooting
  - Practice Exam

**DAY 5: Friday, February 11, 2022**

- 8:00 am - Noon
  - Lecture Review & Lab Testing
- 1:00 - 5:00 PM
