

**Backflow Prevention
Assembly Testers Course
Kalispell
June 13 - 18, 2022**

NONPROFIT
U.S. POSTAGE PAID
GREAT FALLS, MT
PERMIT No. 237

Course Instructor:

Curtis Hester is retired from the United States Air Force. He is currently the plumbing shop foreman at Malmstrom Air Force Base in Great Falls. Curtis has been a certified tester and backflow manager at Malmstrom AFB for over 25 years.

Course Description:

A series of lectures followed by guided exercises in a wet lab will provide understanding of field testing methods on 4 backflow prevention assemblies: pressure vacuum breakers, spill resistant vacuum breakers, reduced pressure principle assemblies, and double check assemblies. Students will gain knowledge in hydraulics, backflow and backsiphonage, types of cross connections, and degrees of hazard and state and federal regulations. Friday afternoon participants can take a written exam and on Saturday morning can take a practical exam administered by the American Backflow Prevention Association (ABPA). Passing scores on both the exams will result in certification by ABPA as a backflow prevention assembly tester. For more information on ABPA see the back of this training announcement or go to their website www.abpa.org.

ABPA Certification Program:

The American Backflow Prevention Association's Certification Program, recognized by the state of Montana, assists the administrative authority in assuring that backflow prevention assembly testers are receiving proper training and can demonstrate their understanding of that training in a validated examination process. When a tester successfully completes a written and practical exam ABPA awards a certificate. Testers can present the certificate to employers to demonstrate their understanding of backflow prevention and cross-connection control and the ability to perform a field test of a backflow prevention assembly.

Montana Rural Water Systems, Inc.
525 Central Avenue, M6

If you are not an ABPA member click on Continue as Guest. Complete the registration form and pay.

CECs: up to 3.6 for water & wastewater operators

COLLEGE CREDIT: 3 credits may be available through MSU-Northern's Water Quality Program. University fees apply. Please contact Carol Reifschneider at MSUN at (406) 265 - 4126 for separate registration and payment.

COURSE MATERIALS: Course materials will be mailed upon receipt of payment. The USC FCCCHR Manual of Cross-Connection Control 10th Edition and the Montana Backflow Prevention Assembly Testers Manual are used for this course. Those recertifying should already have these manuals and must bring them to class. If you no longer have these manuals the fee is \$100 for a set.

DAY 1: Monday, June 13, 2022

- 9:00 am Registration
- 9:30 am - 4:30pm
- Lecture
- Status of State Program
- Responsibility, Liability, and Authority for Prevention
- Hydraulics & Test Kits
- Connections & Unapproved Devices
- Special Application Devices
- Cross Connection Control

DAY 2: Tuesday, June 14, 2022

- 8:00 am -4:30pm
- Reduced Pressure Principle Assemblies (RP)
- Double Check Assemblies (DC)
- Associated Hydraulics & Maintenance & Repair
- Lab/Diagnostics/Troubleshooting

DAY 3: Wednesday, June 15, 2022

- 8:00 am - 4:30pm
- Pressure Vacuum Breakers (PVB)
- Spill Resistant Vacuum Breakers (SVB)
- Atmospheric Vacuum Breakers (AVB)
- Associated Hydraulics & Maintenance & Repair
- Lab/Diagnostics/Troubleshooting

DAY 4: Thursday, June 16, 2022

- 8:00 am - 4:30pm
- Reduced Pressure Principle Assemblies (RP)
- Double Check Assemblies (DC)
- Pressure Vacuum Breakers (PVB)
- Spill Resistant Vacuum Breakers (SVB)
- Lab/Diagnostics/Troubleshooting
- Practice Exam

DAY 5: Friday, June 17, 2022

- 8:00 am - Noon
- Lecture Review & Lab Testing
- 1:00 - 5:00 PM
- ABPA Written Exam only for New and Recerts

DAY 6: Saturday, June 18, 2022

- 8:00 am
- ABPA Practical Exam Only for New and Recerts
