Letter of Interest for Board  
Montana Rural Water Systems

Dear fellow members,

As a member seeking re-election, I would like to tell you what I have been doing during my first term.

I was very instrumental in rewriting MRWS bylaws, policy and procedure manuals. In addition, I assisted in developing a position description for the Executive Director.

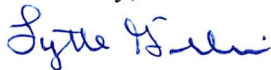

A new milestone MRWS is kicking off in 2022 is purchasing land to build a new quality training facility. This ambitious endeavor will enhance training opportunities in areas of technical assistance to drinking water, wastewater, and tribal systems throughout the state. MRWS's goal is to provide the best industry training in Montana, in a state of the art facility. I offer years of experience in planning developments and completing major projects in my current capacity of water and sewer management, as well as my previous post as manager of over 400 low rent units and associated community building projects.

As a member of MRWS board, I have made significant contributions to help redevelop many of MRWS's policies and procedures. This is in part due to my day-to-day operation of 42 systems, which requires a tremendous amount of administrative duties, which I have brought to MRWS.

MRWS is on the forefront of a huge expansion. I have the experience and commitment to ensure this endeavor is successful from a team approach.

I ask that you support me in re-election to the MRWS Board.

Sincerely,

Lytle "Bud" Gillin

30820 Atwen Lane, Polson, MT 59860
