Montana Rural Water Systems
525 Central Avenue M6
Great Falls, MT 59401

Board of Directors:

I would like to apply for the position of Board Member with Montana Rural Water Systems (MRWS), region 2. I have been the Coordinator for Dry-Redwater Regional Water Authority (DRWA) for more than 10 years and feel my accomplishments and involvement in regional water have given me skills and insight that would allow me to lend positive contributions to the MRWS Board. In my tenure at DRWA, the system has gone from plan on paper to a federally authorized regional water project under construction in Montana.

I have seen firsthand the positive benefit of MRWS. The training, assistance, knowledge, and availability is unmatched in Montana; from large systems to small, Montana Rural Water has had a positive impact. I am excited to see how MRWS maximizes positive impacts on the industry and I would be proud to be an element of that success.

Thank you for your time,

Mandi S. Nay
DRWA Coordinator
