

This Training Session:

This session is designed for small Systems but all are welcome. A variety of topics concerning your water and wastewater sampling and monitoring will be covered. From bacti & chemical sampling to the Revised Total Coliform Rule and monitoring schedules will be covered, including a look at "Drinking Water Watch" and online Monitoring Schedules. Shipping samples will also be discussed.

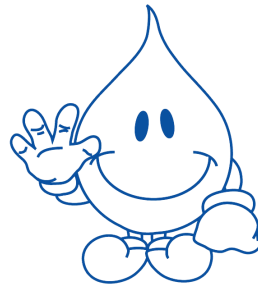

This training session is designed for "Awareness Training" and is not intended to be your only source for information!
